COMPETITION TRIBUNAL OF SOUTH AFRICA

Case No: LM133Nov19

In the matter between

Agile Capital Four (Pty) Ltd

Primary Acquiring Firm

And

Average Technologies (Pty) Ltd and K2019302693
(South Africa) (Pty) Ltd

Primary Target Firms

Panel	: Ms Y Carrim (Presiding Member)
	: Ms A Ndoni (Tribunal Member)
	: Prof. H Cheadle (Tribunal Member)
Heard on	: 15 January 2020
Order Issued on	: 15 January 2020
Reasons Issued on	: 29 January 2020

REASONS FOR DECISION

Approval

- [1] On 15 January 2020, the Tribunal unconditionally approved the proposed transaction in terms of which Agile Capital Four (Pty) Ltd (Agile) is acquiring control over Average Technologies (Pty) Ltd (Averge) and K2019302693 (South Africa) (Pty) Ltd (AVT2).
- [2] The reasons for the approval of the proposed transaction follow.

Parties to the transaction

- [3] The primary acquiring firm, Agile, is a newly established firm that does not have any activities. Agile is controlled by Agile Capital 400 (Pty) Ltd (Fund Manager) and Corvest 12 (Pty) Ltd (Corvest 12). Two individuals, Mr Ettiene de Wet Visser (Visser) and Mr Johannes Samuel Gouws (Gouws) also form part of the acquiring firm for the purpose of this transaction.
- [4] The controllers of Agile are active in, *inter alia*, private equity, management buyouts and buy-ins and have investment holdings in various sectors.
- [5] The primary target firms are Averige and AVT2. Averige is controlled by Visser, and AVT2 does not have any entity controlling it pre-merger.¹
- [6] Averige has five key divisions namely, **(i)** DC Power Systems, **(ii)** Energy, **(iii)** Telecommunications, **(iv)** Network Optimization and **(v)** Specialised services. In summation, Averige is a specialist distributor of a range of products which include supplying back-up batteries and fibre optic components for use in the communications industry and supplying overhead line equipment for use in the energy sector. AVT2 provides the same products and services as Averige.

Proposed transaction and rationale

- [7] The proposed transaction entails the acquisition of certain minority protections by Agile in Averige and AVT2 which will confer control over them. Post-merger, Averige will be controlled by Agile and Visser. AVT2 will be controlled by Agile, Visser and Gouws.

¹ Hearing Transcript, page 2 lines 16-17.

Impact on competition

[8] The Competition Commission (Commission) considered the activities of the merging parties and found that the proposed transaction will not result in any overlaps in any market. This is because the merging parties do not provide services that are substitutable, nor do the merging parties have a business relationship.

Public interest

[9] The proposed transaction does not raise any public interest concerns.

Conclusion

[10] In view of the above, we concluded that the proposed transaction is unlikely to substantially prevent or lessen competition in any market in South Africa. In addition, no public interest issues arise from the proposed transaction. Accordingly, we approved the proposed transaction unconditionally.

Ms Yasmin Carrim
