## 2 THE COMPLAINT AND COMPLAINT INVESTIGATION

2.1 On 18 December 2013, the Commission received the Complaint and decided to investigate the Complaint in terms of section 49B(3) of the Act.

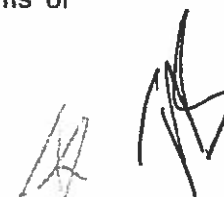

2.2 The Complainant alleged that Pelchem and Marley have entered into a Joint Development Agreement in terms of which Pelchem is required to only surface fluorinate Marley's HDPE fuel pipes in South Africa. As a result of this Joint Development Agreement between Pelchem and Marley, Colvic alleges that it cannot enter the market for the supply of fluorinated HDPE fuel pipes.

2.3 The Commission assessed the alleged conduct in terms of the Act. Following its investigation, the Commission found the following:

2.3.1 Pelchem is the sole supplier of surface fluorination services in South Africa. Fluorination is the process whereby fluorine is used to treat various products in order to modify and improve their permeation and adhesion characteristics.

2.3.2 Marley is a manufacturer of HDPE pipes for various applications, such as pumping systems at fuel filling stations. Such pipes need to be fluorinated to prevent the fuel from leaking through the walls of the pipes.

2.3.3 On or about 10 December 2013 Pelchem concluded an ever-green Joint Development Agreement with Marley in terms of

which Pelchem would exclusively supply its surface fluorination services in respect of HDPE fuel pipes to Marley in South Africa.

- 2.3.4 Pelchem also entered into similar exclusive Joint Development Agreements with third parties in terms of which Pelchem would exclusively supply its surface fluorination services for (i) fuel tanks; (ii) HDPE and PP pails/bucket; and (iii) electric cables respectively.

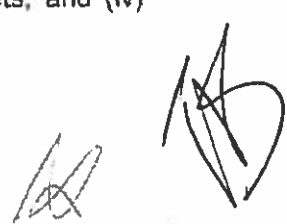

### 3 CO-OPERATION

#### 3.1 Pelchem has:

- 3.1.1 Provided the Commission with truthful and timely disclosure, including information and documents in its possession or under its control, relating to the alleged prohibited practices.
- 3.1.2 Provided full and expeditious co-operation to the Commission concerning the alleged prohibited practices.
- 3.1.3 Ceased to engage in, and will not in future engage in, any form of alleged prohibited practice.
- 3.1.4 Confirmed that it has not destroyed, falsified or concealed information, evidence and documents relating to the alleged prohibited practices.
- 3.1.5 Confirmed that it has not misrepresented or made a wilful or negligent misrepresentation concerning the material facts or otherwise acted dishonestly.

### 4 UNDERTAKINGS

- 4.1 Pelchem undertakes that it will remove all clauses relating to exclusivity and evergreen duration from its existing Joint Development Agreements that involve the provision of surface fluorination services in respect of (i) HDPE pipes; (ii) fuel tanks; (iii) HDPE and PP pails/buckets; and (iv) electric cables.

- 4.2 Pelchem undertakes that it will not, in the future, enter into any exclusive supply agreements for the provision of surface fluorination services for, including but not limited to, HDPE fuel pipes, fuel tanks, HDPE and PP pails/buckets and electric cables.

## 5 GENERAL

- 5.1 Pelchem makes no admission of liability of any kind whatsoever for any prohibited conduct under the Act on its part.
- 5.2 This agreement, upon confirmation as an order by the Tribunal, is in settlement of and concludes the Complaint between the Commission and Pelchem relating to the alleged contravention by Pelchem of sections 5(1) and 8(c) of the Act that is the subject of or was investigated under the Commission case number 2013DEC0615.
